

# THINK YOU HAVE WHAT IT TAKES TO BE **THE BEST?**

## OPERATOR WORLD CUP 2017

NAPCON is on the lookout to find the world's best process operators. Operators from around the world will test their industrial distilling skills by playing against each other with NAPCON Games Distiller - a transformational training game. The Operator World Cup is hosted at industry events around the globe, and will culminate in the Grand Finale in February 2018. The winner will receive a license for the NAPCON Games Distiller.

*"The NAPCON Games Distiller is a truly ground-breaking newcomer in the field of operator training. It is an interactive, fun, and above all, effective way of learning. The Operator World Cup is giving the true stars of our plants a well-deserved chance to shine, and we're enjoying every minute of it".*
